PROFESSIONAL SUMMARY

Full-Stack Developer with 6+ years across MERN applications, ASP.NET ERP/CRM systems, and technical mentoring. Based in Coimbatore, open to on-site, hybrid, and remote roles. Builds **Python, React.js, Node.js, MongoDB, Django, PostgreSQL and SQL Server** platforms for telecom field reporting and finance workflows — JWT/RBAC, approvals, notifications, and document exports.

Career note (2018–2023): Planned break for family commitments with structured upskilling in React, Node.js, and cloud deployment; returned to full-time product engineering in 2023.

TECHNICAL SKILLS

- **Languages**: JavaScript (ES6+), TypeScript, C#, Python, SQL, HTML5, CSS3
- **Frontend**: React.js, Hooks, Redux, Context API, React Query, Next.js, Tailwind CSS, Bootstrap
- **Backend** & **APIs**: Node.js, Express.js, Python , Django, REST APIs, Webhooks, WebSockets, Microservices, ASP.NET
- **Databases**: MongoDB, SQL Server, MySQL, PostgreSQL, relational schema design
- **Cloud** & **Deployment**: AWS, Amazon S3, Docker, Linux servers, Vercel, Netlify
- **Security**: JWT, RBAC, session authentication, Auth.js (NextAuth.js)
- **Testing** & **API** Tools: Cypress, Postman, API validation, debugging
- **Analytics** & **Reporting**: Power BI, Power Query,, Advanced Excel, Crystal Reports, RDLC, PDF/Excel/Word generation
- **AI** & **Engineering Tools**: Gemini API integration, TensorFlow, Dialogflow, Web Speech API, RapidMiner, Git, VS Code, Cursor

PROFESSIONAL EXPERIENCE

Senior Full Stack Developer • June 2023 to Present

Elevado Softwares Pvt. Ltd.
Software Developer | Client Project: Worldwide Communications

- Developed and maintained web applications using **TypeScript, React.js, Next.js, Node.js, Tailwind CSS, and SQL**, implementing **JWT authentication and Role-Based Access Control (RBAC)** for field engineers, vendors, site managers, and finance users.
- Developed a **telecom field reporting and survey platform** with site assignments, template-based reports, GPS-based photo capture, approval workflows, email notifications, and **PDF, Excel, and Word exports**.

- Developed a **finance management application** for workflow tracking, approvals, and reporting, improving visibility into financial processes.
- Deployed and maintained applications on a **Linux server using AWS**.

Freelance Technical Mentor • Jun 2025 to July 2026
Entri Elevate - software development and data analytics training

- Mentor more than two concurrent software development and data analytics cohorts, tailoring sessions to each syllabus and learner level.
- Teach MERN application development and deployment, along with Gemini API integration, TensorFlow, Dialogflow, Web Speech API, and RapidMiner.
- Review weekly assignments and mini-projects, provide code-level debugging feedback, and assess progress through mock interviews and job-readiness evaluations.
- Work with the engineering team to improve post-training assessments and support projects covering frontend, backend, database integration, and deployment.

Career break — upskilling & family commitments

Independent learning · Jan 2018 — May 2023

• Structured upskilling in JavaScript, React, Node.js, MongoDB, Python, Power BI, and cloud deployment.

Team Lead • Feb 2016 to Dec 2017 • Coimbatore, India
Vestige Technologies Pvt. Ltd.

- Owned frontend implementation for an enterprise web application within a four-member engineering team.
- Performed product upgrades and code maintenance for existing client applications, addressing scalability issues identified during delivery.
- Led ERP module development using ASP.NET, C#, and SQL Server; designed application workflows, database schemas, and operational reports.
- Allocated tasks, conducted daily scrums, reviewed technical implementation, and communicated delivery status to stakeholders.

Junior Software Developer • Jun 2014 to Feb 2016 • Coimbatore, India
Axon Infosoft Kovai Ltd.

- Developed ERP and CRM modules using ASP.NET, C#, SQL Server, JavaScript, and jQuery.
- Gathered module requirements, maintained source code and databases, fixed application issues, and produced Crystal Reports and RDLC reports.
- Facilitated daily stand-ups and feature prioritization, and corrected three code inefficiencies affecting application responsiveness. Worked with clients and backend engineers to define feature scope, resolve implementation dependencies, and complete planned releases.

EDUCATION

B.E. in Computer Science and Engineering, **CGPA: 8.1**
Coimbatore Institute of Engineering and Technology
